## Easy to use and flexible - Enjoy the process

Intuitive, user-friendly and driven by powerful software: You'll quickly be up and running.

No software to install or maintain. Always available, always up to date.

Access anytime, anywhere via your browser of choice .... IE, Firefox, Safari, Chrome, Opera, ....

## Smart Sizing

*An innovative and exclusive feature*

**Energy efficiency and renewable energy systems can be great investments.** Size smartly and build customer confidence by taking your customer's desire for financial well-being to heart.

EnergyPeriscope™ helps maximize your customer's *investment efficiency*. Size systems intelligently - go beyond the simplistic notions of "tier shaving" or "percent-of-energy" when sizing energy systems for your customers. Easily compare finance options (cash, loan, lease, PPA) to see which may best serve the customer and help close the sale.
